

ISO/TR 13849-3:2026-03 (E)

Safety of machinery - Safety-related parts of control systems - Part 3: Markov model-based PFH calculation

Contents

Page

Foreword.....	iv
Introduction.....	v
1 Scope.....	1
2 Normative references.....	1
3 Terms, definitions, symbols and abbreviated terms.....	1
3.1 Terms and definitions.....	1
3.2 Symbols and abbreviated terms.....	1
4 Basic assumptions.....	7
5 Channels.....	8
5.1 General.....	8
5.2 Functional channel.....	8
5.3 Test channel.....	9
5.4 Channel comprising elements connected logically in series.....	9
5.5 Limitation of λ_{CHD} (Capping).....	10
6 Wearing parts.....	10
7 Common cause failures.....	11
8 Series arrangement of subsystems.....	12
9 Single-channel architecture with and without test channel.....	13
9.1 General.....	13
9.2 General solution for the single-channel architecture.....	13
9.3 Single-channel architecture with time-optimal testing.....	14
9.4 Single-channel architecture with external diagnostics.....	15
9.5 Single-channel architecture with external diagnostics and time-optimal testing.....	15
9.6 Single-channel architecture without diagnostics.....	15
9.7 Simplified general solution for the single-channel architecture.....	16
9.8 Simplified solution for the single-channel architecture with time-optimal testing.....	16
10 Two-channel architectures.....	16
10.1 General.....	16
10.2 General solution for the two-channel architecture.....	17
10.3 Two-channel architecture with continuous testing.....	19
10.4 Two-channel architecture without testing.....	19
10.5 Simplified general solution for the two-channel architecture.....	20
10.6 Simplified solution for the symmetrical two-channel architecture.....	20
10.7 Simplified solution for the two-channel architecture with continuous testing.....	21
10.8 Simplified solution for the two-channel architecture without testing.....	21
Annex A (informative) Examples of the application of this formula-based approach.....	22
Annex B (informative) Derivation of the PFH formulas presented in the main part.....	34
Bibliography.....	74
