European foreword 4

1 Scope 7

2 Normative references 7

3 Terms and definitions 9

4 General 13

5 Requirements and test methods 13
5.1 Mechanical and physical hazards (see B.3) 13
5.1.1 Suffocation hazards (see B.3.1) 13
5.1.2 Entrapment hazards (see B.3.2) 18
5.1.3 Choking hazards (see B.3.3) 18
5.1.4 Entanglement hazards (see B.3.4) 19
5.1.5 Hazardous edges and projections (see B.3.5) 20
5.1.6 Ingestion hazards (see B.3.6) 21
5.1.7 Suitable size according to child morphology (see B.3.7) 21
5.2 Chemical hazards (see B.4) 22
5.2.1 Migration of certain substances 22
5.2.2 Formaldehyde 23
5.2.3 pH 23
5.2.4 Flame retardants 23
5.2.5 Colourants 23
5.3 Thermal hazards - Hyperthermia (see B.5) 23
5.3.1 Requirements 23
5.3.2 Test method 24
5.4 Flammability and burning hazards (see B.6) 24
5.5 Hygiene hazards (see B.7) 25
5.5.1 Requirements and methods 25

6 User information 25
6.1 General 25
6.2 Marking 25
6.3 Purchase information 26
6.4 Instruction for use 27
6.5 Plastic packaging 27

Annex A (informative) Inherently safe design 28

Annex B (informative) Rationale 32

B.1 General 32
B.2 Design characteristics - Inherently safe design and hazards 33
B.3 Mechanical and physical hazards 35
B.4 Chemical hazards 41
B.5 Thermal hazards (hyperthermia and hypothermia) 42
B.6 Flammability and burning hazards 44
B.7 Hygiene hazards 44

Annex C (informative) Supplementary information on thermal hazards 46

C.1 Background information 46
C.2 Thermal resistance measurement 46
C.3 Measurements with thermal manikins 47
C.4 Rationale for guidance to the purchaser and/or user 47
C.5 Relationship between thermal resistance and thickness or mass per unit area (surface density) 49

Annex D (informative) Supplementary information on slide fastener positions 50

Annex E (informative) Specific marking, purchase information and user instruction 51

Annex ZA (informative) Relationship between this European Standard and the requirements of Regulation 2023/988/EC aimed to be covered 52
