DIN EN 15051:2006-07 (E)

Workplace atmospheres - Measurement of the dustiness of bulk materials - Requirements and reference test methods

Contents

Page

Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Principle 6

5 Requirements 7

6 Reference test methods 8

7 Evaluation of dustiness 12

8 Test report 13

Annex A (normative) Description of reference test apparatus 15

Annex B (normative) Determination of moisture content 19

Annex C (normative) Determination of bulk density of the test material 20

Annex D (normative) Test of equivalence between an alternative (candidate) test method and any of the reference test methods 21
