

DIN EN 14797:2007-03 (E)

Explosion venting devices

Contents		Page
Foreword		4
1	Scope	5
2	Normative references	5
3	Terms and definitions	6
4	Design requirements	8
4.1	General	8
4.2	Potential sources of ignition	9
5	Types of explosion venting devices	9
5.1	Explosion venting devices with reusable elements	9
5.2	Explosion venting devices with non reusable elements	9
6	Back pressure supports	9
6.1	General	9
6.2	Opening back pressure supports	10
6.3	Non-opening back pressure supports	10
7	Testing of explosion venting devices	10
7.1	General	10
7.2	Static activation pressure	10
7.3	Explosion testing	12
8	Information for use	16
9	Assembly, replacements or reusability	17
10	Marking	17
10.1	General	17
10.2	Explosion venting devices with reusable retaining elements	17
10.3	Explosion venting devices with non-reusable retaining elements	18
10.4	Omission of markings	18
11	Packaging	19
11.1	General	19
11.2	Marking	19
Annex A (informative) Examples for explosion venting devices		20
A.1	Re-closing explosion venting devices	20
A.2	Devices which require manual repositioning or replacement of the retaining element	21
A.3	Devices with non reusable elements	23
Annex B (informative) Service and maintenance		26
B.1	General	26
B.2	Servicing	26

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 94/9/EC	27
Bibliography	29
Figures Figure 1 -- Direct comparison method	14
Figure 2 -- Example for direct comparison method	15
Figure A.1 -- Example for an explosion door	21
Figure A.2 -- Example for a buckling-rod device	22
Figure A.3 -- Example for a bursting panel device	23
Figure A.4 -- Example for a restrained pop-out panel device	24
Figure A.5 -- Example for a back pressure support	25
Tables Table 1 -- Symbols and their descriptions	8
Table 2 -- Number of tests of explosion venting devices with non-reusable elements	12
Table ZA.1 -- Correspondence between this European Standard and Directive 94/9/EC	27
