Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Frame test methods 5
4.1 Frame -- Impact test (falling mass) 5
4.2 Frame and front fork assembly -- Impact test (falling frame) 8
4.3 Frame -- Fatigue test with pedalling forces 10
4.4 Frame -- Fatigue test with horizontal forces 12
4.5 Frame -- Fatigue test with a vertical force 13

5 Fork test methods 15
5.1 Suspension forks -- Tyre-clearance test 15
5.2 Suspension forks -- Tensile test 16
5.3 Front fork -- Static bending test 16
5.4 Front fork -- Rearward impact test 17
5.5 Front fork -- Bending fatigue test and rearward impact test 20
5.6 Forks intended for use with hub or disc brakes 21
5.7 Tensile test for a non-welded fork 23

Annex A (normative) Dummy fork characteristics 24

Annex B (normative) Fork mounting fixture 26

Annex C (informative) Suspension frames -- Tyre-clearance test 28
