DIN EN 17860-7:2025-06 (E)

Carrier cycles - Part 7: Cargo trailers

Contents

Page

European foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 7

4 Cargo trailer cycle combination 7

5 General vehicle requirements 7
5.1 Accuracy tolerances of test conditions for brake tests and strength tests 7
5.2 Design of the surface requirements 7
5.3 Securing and strength of safety-relevant fasteners 7
5.4 Mudguards/wheel covers 7
5.4.1 Requirement 7
5.4.2 Test method 7
5.5 Deflection device 8
5.6 Position of payload 9
5.7 Recommendations for loading areas/load securing 9
5.8 Braking 9
5.8.1 General 9
5.8.2 Hand-operated brakes 9
5.8.3 Requirements for test method on a test track 9
5.8.4 Brake performance testing 11
5.9 Parking and stability 12
5.9.1 Parking -- Requirements 12
5.9.2 Parking stability while loading 12
5.10 Tipping stability 13
5.10.1 Static tipping stability 13
5.10.2 Dynamic tipping stability 13
5.11 Dynamic tipping stability - double lane change test 14
5.11.1 Requirement 14
5.11.2 Test method 14
5.12 Drawbar 15
5.12.1 Drawbar position for single and multi-axle cargo trailer 15
5.12.2 Drawbar clearance 15
5.12.3 Drawbar strength test 16
5.12.4 Drawbar static test 18
5.13 Secondary safety device 18
5.13.1 Requirements 18
5.13.2 Test method strength secondary safety device 19
5.13.3 Test method automatic brake system 19

6 Frame 19
6.1 Suspension frames - special requirements 19
6.2 Requirements for all frame types 19
6.3 Dynamic test with horizontal forces 19
6.3.1 General 19
6.3.2 Determination of test loads 20

6.3.3 Test method ... 20
6.4 Dynamic test with vertical forces onto the loading point ... 21
6.4.1 General ... 21
6.4.2 Test method ... 21
6.5 Dynamic test with lateral forces ... 22
6.5.1 General ... 22
6.5.2 Requirement ... 24
6.5.3 Test method ... 24
6.6 Frame - Brake mount test ... 26
6.6.1 Requirements ... 26
6.6.2 Brake mount fatigue test ... 26
6.6.3 Brake mount static torque test ... 27

7 Front wheel fork ... 27
7.1 General ... 27
7.2 Installation of the axle and wheel fastening ... 27
7.3 Front wheel fork - Static bending test ... 27
7.4 Front wheel forks - Dynamic bending test ... 27
7.5 Front wheel forks - Rearward impact test ... 28
7.6 Front forks for use with hub or disc brakes ... 28
7.6.1 Requirements ... 28
7.6.2 Front fork for hub/disc brake -- Dynamic test of the brake mounting ... 28
7.6.3 Front fork for hub/disc brake - Static braking torque test ... 28

8 Wheel and wheel/tyre unit - Dynamic test for cargo trailers ... 28

9 Wheels and wheel/tyre assembly ... 28
9.1 Wheels/tyre assembly - Concentricity tolerance and lateral tolerance ... 28
9.2 Wheel/tyre assembly - Clearance ... 28
9.3 Wheel/tyre assembly - static strength test ... 28
9.4 Wheels - Wheel retention ... 28

10 Rims, tyres and tubes ... 29

11 Drive chain and drive belt ... 29
11.1 Requirement ... 29
11.2 Test method ... 29

12 Guard for chain-wheel set and belt drive ... 29
12.1 Requirement ... 29
12.2 Test method ... 29

13 Lighting systems and reflectors ... 29

14 Cargo trailer visibility ... 29

15 Rear view ... 29

16 Warning device ... 29

17 Vibrations, ergonomics and design of work equipment ... 30

18 Structural integrity test ... 30

19 User instructions ... 30

20 Markings ... 32
20.1 Cargo trailer marking ... 32
20.2 Components marking ... 33

Bibliography ... 34
