Personal flotation devices - Part 9: Test methods

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	2
4 Classification of personal flotation devices	4
5 Test methods	4
5.1 General	4
5.2 Sampling and conditioning	4
5.3 Criteria for passing and failure	4
5.4 Magnetic properties testing	5
5.5 Mechanical properties tests	5
5.6 Human subject performance tests	18
Annex A (informative) Classification of personal flotation devices	32
Annex B (normative) Adult reference vest for test-subject disqualification and test-subject group validation	34
Annex C (normative) Child reference vest for test subject disqualification and test subject group validation	46
Annex D (normative) Infant reference vest for test subject disqualification and test subject group validation	55
Annex E (informative) Child manikins	63
Bibliography	68
