Foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 6

4 Requirements 7
4.1 Materials 7
4.2 Construction 8
4.2.1 General 8
4.2.2 Retention system 8
4.3 Field of vision 9
4.4 Extent of coverage 9
4.4.1 Class A 9
4.4.2 Class B 9
4.5 Shock absorbing capacity 11
4.6 Resistance to penetration 11
4.7 Retention system performance 11
4.7.1 Strength 11
4.7.2 Effectiveness 11
4.8 Durability 11

5 Testing 11
5.1 Sampling 11
5.2 Inspection and determination of mass 12
5.3 Conditioning 12
5.3.1 Room conditioning 12
5.3.2 Low temperature conditioning 12
5.3.3 Artificial ageing 12
5.4 Test areas 13
5.4.1 General 13
5.4.2 Test area for class A 13
5.4.3 Test area for class B 13
5.5 Determination of shock absorbing capacity 14
5.5.1 Apparatus 14
5.5.2 Procedure 15
5.6 Determination of resistance to penetration 15
5.6.1 Apparatus 15
5.6.2 Procedure 16
5.7 Determination of retention system strength 16
5.7.1 Apparatus 16
5.7.2 Procedure 16
5.8 Determination of retention system effectiveness 16
5.8.1 Apparatus 16
5.8.2 Procedure 16
5.9 Test report 16

6 Marking 17

7 Information to be supplied by the manufacturer 17

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 89/686/EEC 18
