Management of terminology resources - Terminological markup framework

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Modular approach 4

5 Generic model for describing terminological data 6
5.1 Principles 6
5.2 Metamodel 7
5.3 Example 9

6 Requirements for compliance to TMF 9

7 Interchange and interoperability 10

8 Representing languages 10

9 DefiningaTML 11
9.1 Requirements 11
9.2 Defining interoperability conditions 11

10 ImplementinganXML-serializedTML 11
10.1 General 11
10.2 Implementing the metamodel 11
10.3 Anchoring data categories 12
10.3.1 General 12
10.3.2 Styles and vocabulary 12
10.4 Constraints on datatypes 13
10.5 Implementing annotations 13
10.6 Implementing brackets 13

Annex A (informative) Conformance of terminological data to TMF: example scenario 14
