Management of terminology resources - Terminological markup framework

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Modular approach	4
5	Generic model for describing terminological data	6
5.1	Principles	6
5.2	Metamodel	7
5.3	Example	9
6	Requirements for compliance to TMF	9
7	Interchange and interoperability	10
8	Representing languages	10
9	Defining a TML	11
9.1	Requirements	11
9.2	Defining interoperability conditions	11
10	Implementing an XML-serialized TML	11
10.1	General	11
10.2	Implementing the metamodel	11
10.3	Anchoring data categories	12
10.3.1	General	12
10.3.2	Styles and vocabulary	12
10.4	Constraints on datatypes	13
10.5	Implementing annotations	13
10.6	Implementing brackets	13
Annex A (informative) Conformance of terminological data to TMF: example scenario		14
