DIN EN ISO 6806:2014-12 (E)

Rubber hoses and hose assemblies for use in oil burners - Specification (ISO 6806:2014)

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Construction 4

4 Dimensions and tolerances 5
4.1 Inside diameter 5
4.2 Bend radii 5
4.3 Thickness of lining and cover 5

5 Physical requirements for lining and cover 5

6 Physical requirements for hoses and hose assemblies 6
6.1 Hydrostatic tests 6
6.2 Oil swell 6
6.3 External pressure test 6
6.4 Low-temperature flexibility 7
6.5 Flammability 7
6.6 Ozone resistance (cover only) 7
6.7 Impulse test 7

7 Frequency of testing 7

8 Type tests 7

9 Marking 7

Annex A (normative) Test frequency 8

Annex B (informative) Production tests 9

Annex C (normative) Determination of oil swell 10

Annex D (normative) Determination of resistance to external pressure 11

Annex E (normative) Determination of flammability 12

Annex F (normative) Pressure impulse test 14
