

# DIN EN ISO 6806:2017-09 (E)

## Rubber hoses and hose assemblies for use in oil burners - Specification (ISO 6806:2017)

---

<b>Contents</b>		<b>Page</b>
European foreword .....		3
Foreword .....		4
1	Scope .....	5
2	Normative references .....	5
3	Terms and definitions .....	5
4	Construction .....	6
5	Dimensions and tolerances .....	6
5.1	Inside diameter .....	6
5.2	Bend radii .....	6
5.3	Thickness of lining and cover .....	7
6	Physical requirements for lining and cover .....	7
7	Physical requirements for hoses and hose assemblies .....	7
7.1	Hydrostatic tests .....	7
7.1.1	Proof pressure test .....	7
7.1.2	Burst pressure test .....	7
7.2	Oil swell .....	8
7.3	External pressure test .....	8
7.4	Low-temperature flexibility .....	8
7.5	Flammability .....	8
7.6	Ozone resistance (cover only) .....	8
7.7	Impulse test .....	8
8	Frequency of testing .....	8
9	Type tests .....	8
10	Marking .....	9
Annex A (normative) Test frequency .....		10
Annex B (informative) Production tests .....		11
Annex C (normative) Determination of oil swell .....		12
Annex D (normative) Determination of resistance to external pressure .....		13
Annex E (normative) Determination of flammability .....		15
Annex F (normative) Pressure impulse test .....		17
Bibliography .....		18
