Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Complete specification operator 6
4.1 General 6
4.2 Method of extraction 6
4.3 Association method 10
4.4 Filtration 10
4.5 Definition area 11

5 General information 11

Annex A (informative) Decision tree for complete specification operator 12

Annex B (normative) Default attribute values for parameters from ISO 25178-2 13

Annex C (normative) Default units for parameters from ISO 25178-2 15

Annex D (informative) Relationship with surface texture profile parameters 18

Annex E (informative) Relation to the GPS matrix model 20
