

DIN EN ISO 1938-1:2016-03 (E)

Geometrical product specifications (GPS) - Dimensional measuring equipment - Part 1: Plain limit gauges of linear size (ISO 1938-1:2015)

Contents	Page
European foreword	3
Foreword	4
Introduction	5
1 Scope	6
2 Normative references	6
3 Terms and definitions	7
3.1 Limits.....	7
3.2 Gauge types.....	8
3.3 Characteristics and function of gauges.....	11
4 Abbreviated terms and symbols	12
5 Design characteristics for gauges	13
6 Metrological characteristics	15
6.1 General.....	15
6.2 Metrological characteristic relative to the type of limit gauge (GO gauge or NO GO gauge).....	15
7 Maximum permissible limits on metrological characteristics	19
7.1 General.....	19
7.2 Limit gauges for internal features of size.....	20
7.3 Limit gauges for external features of size.....	21
7.4 Values for calculation of MPL of limit gauges.....	23
8 Proving conformance with specification for limit gauges	26
9 Verification of dimensional specification of a workpiece with limit gauges	26
10 Marking	28
Annex A (informative) General principles and application of limit gauging	29
Annex B (informative) Description of the specific use of the various gauge types and the associated uncertainty	31
Annex C (informative) Relation to the GPS matrix model	33
Bibliography	35
