

ISO 25178-606:2015-06 (E)

Geometrical product specification (GPS) - Surface texture: Areal - Part 606: Nominal characteristics of non-contact (focus variation) instruments

Contents		Page
Foreword		iv
Introduction		vi
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
3.1	Terms and definitions related to all areal surface texture measurement methods	2
3.2	Terms and definitions related to x- and y-scanning systems	9
3.3	Terms and definitions related to optical systems	11
3.4	Terms and definitions related to optical properties of the workpiece	13
3.5	Terms and definitions specific to focus variation instruments	13
4	Description of the influence quantities	16
4.1	General	16
4.2	Overview	17
4.3	Influence quantities	17
	Annex A (informative) Components of a focus variation microscope	19
	Annex B (informative) Relation to the GPS matrix model	25
	Bibliography	27
