

ISO 25178-606:2015-06 (E)

Geometrical product specification (GPS) - Surface texture: Areal - Part 606: Nominal characteristics of non-contact (focus variation) instruments

Contents	Page
Foreword	iv
Introduction	vi
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
3.1 Terms and definitions related to all areal surface texture measurement methods	2
3.2 Terms and definitions related to x- and y-scanning systems	9
3.3 Terms and definitions related to optical systems	11
3.4 Terms and definitions related to optical properties of the workpiece	13
3.5 Terms and definitions specific to focus variation instruments	13
4 Description of the influence quantities	16
4.1 General	16
4.2 Overview	17
4.3 Influence quantities	17
Annex A (informative) Components of a focus variation microscope	19
Annex B (informative) Relation to the GPS matrix model	25
Bibliography	27
