## Geometrical product specifications (GPS) - Geometrical tolerancing - Profile tolerancing

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Symbols .....	2
5	Rules for profile tolerancing .....	3
5.1	General .....	3
5.2	Default rules for profile tolerancing .....	4
5.2.1	Rule A: Definition of the theoretically exact feature (TEF) .....	4
5.2.2	Rule B: Type of toleranced feature .....	5
5.2.3	Rule C: Definition of the tolerance zone .....	5
5.3	Rules for profile tolerancing using additional specification elements .....	7
5.3.1	Rule D: Toleranced feature specification elements .....	7
5.3.2	Rule E: Unequally disposed tolerance zone .....	8
5.3.3	Rule F: Linear tolerance zone offset .....	8
5.3.4	Rule G: Angular tolerance zone offset .....	8
5.3.5	Rule H: Variable tolerance zone width .....	8
5.3.6	Rule I: Filtered feature specification elements .....	8
5.3.7	Rule J: Association and parameter specification elements .....	9
5.3.8	Rule K: Associated toleranced feature specification elements .....	9
5.3.9	Rule L: Non-rigid part .....	9
Annex A (informative)	Compound features .....	10
Annex B (informative)	Illustration of the rules .....	12
Annex C (informative)	Former practices .....	42
Annex D (informative)	Relation to the GPS matrix model .....	44
Bibliography .....		45
