ISO/TR 23276:2020 (E)

Geometrical product specifications (GPS) — Surface texture: Profile method — Flowchart for PSm, RSm, WSm and Pc, Rc, Wc

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

3.1 General terms
3.2 Surface profile parameters

4 Flowchart for parameters PSm, RSm, WSm and Pc, Rc, Wc

4.1 General
4.2 Part one — Calculation of peaks and valleys within the evaluation length
4.3 Part two — Peak height discrimination and valley depth discrimination
4.4 Part three — Merging of remaining peaks and valleys
4.5 Part four — Calculation of roughness parameters XSm and Xc
