| Foreword .....                                                                                | 4           |
| Introduction .....                                                                            | 6           |
| <b>1 Scope</b> .....                                                                          | <b>7</b>    |
| <b>2 Normative references</b> .....                                                           | <b>7</b>    |
| <b>3 Terms and definitions</b> .....                                                          | <b>8</b>    |
| <b>4 Abbreviated terms</b> .....                                                              | <b>9</b>    |
| <b>5 Taper</b> .....                                                                          | <b>9</b>    |
| <b>6 Draft angles (taper)</b> .....                                                           | <b>10</b>   |
| <b>7 Tolerance grades</b> .....                                                               | <b>13</b>   |
| 7.1 General .....                                                                             | 13          |
| 7.2 Dimensional casting tolerance grades (DCTG) .....                                         | 13          |
| 7.3 Geometrical casting tolerance grades (GCTG) .....                                         | 15          |
| 7.3.1 General .....                                                                           | 15          |
| 7.3.2 Nominal dimensions .....                                                                | 15          |
| 7.3.3 Datums .....                                                                            | 15          |
| <b>8 Surface mismatch (SMI)</b> .....                                                         | <b>18</b>   |
| <b>9 Wall thickness</b> .....                                                                 | <b>18</b>   |
| <b>10 Required machining allowances (RMA)</b> .....                                           | <b>18</b>   |
| 10.1 General .....                                                                            | 18          |
| 10.2 Required machining allowance grades (RMAG) .....                                         | 19          |
| <b>11 Indication on drawings</b> .....                                                        | <b>19</b>   |
| 11.1 Indication of general DCTs .....                                                         | 19          |
| 11.2 Indication of machining allowances .....                                                 | 20          |
| 11.3 Indication of geometrical casting tolerances (GCTs) .....                                | 20          |
| <b>12 Rejection</b> .....                                                                     | <b>21</b>   |
| <b>Annex A (informative) Dimensional and geometrical tolerances for castings</b> .....        | <b>22</b>   |
| <b>Annex B (informative) Required machining allowance grades (RMAG)</b> .....                 | <b>25</b>   |
| <b>Annex C (informative) Concept of general tolerancing of characteristics</b> .....          | <b>26</b>   |
| <b>Annex D (informative) Datums for general geometrical tolerances</b> .....                  | <b>28</b>   |
| <b>Annex E (informative) Application of general geometrical tolerances for castings</b> ..... | <b>32</b>   |
| <b>Annex F (informative) Relation to the GPS matrix model</b> .....                           | <b>39</b>   |
| <b>Bibliography</b> .....                                                                     | <b>40</b>   |
