DIN EN ISO 1938 Beiblatt 1:2025-01 (E)

Geometrical product specifications (GPS) - Dimensional measuring equipment; Supplement 1: Calculation of gauge dimensions for limit gauges

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Symbols and abbreviations 4

5 Formulae for calculating gauge dimensions (MPL) 5

6 Limit gauges for internal features of size (e.g. holes) 6

7 Limit gauges for external features of size (e.g. shafts) and associated reference gauges ..11

Bibliography 18

Tables Table 1 -- Symbols and abbreviations 4

Table 2 -- Formulae for calculating dimensions (MPL) of limit gauges and the associated reference gauges 5

Table 3 -- Values, in micrometres, for the parameters T, H/2, y, z and for calculating dimensions (MPL) of limit gauges of types A, B, C and F for internal features of size (e.g. holes) 7

Table 4 -- Values, in micrometres, for the parameters T, H/2, Hp/2, y1, z1 and 1 for calculating the dimensions (MPL) of limit gauges of types H, J and K for external features of size (e.g. shafts) and the associated reference gauges 12
