

DIN 4760:2025-05 (E)

Form deviations - Concepts, Classification system

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions..... 4

4 Classification system for geometrical deviations 6

Bibliography 8

Figures

Figure 1 — Section from the real surface for assessing 2nd to 5th order geometrical deviations..... 5

Figure 2 — 1st to 4th order geometrical deviations (shown as exaggerated profile section)..... 6

Figure 3 — Superimposition of 1st to 4th order geometrical deviations on the real surface..... 7

Tables

Table 1 — 1st to 5th order geometrical deviations with examples of the type of deviation and their causes 6
