## Geometrical product specifications (GPS) - General concepts and requirements for GPS measuring equipment

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	2
4	Abbreviations .....	12
5	Design characteristics .....	13
5.1	General .....	13
5.2	Indicating measuring equipment .....	14
5.3	Material measures .....	14
6	Metrological characteristics .....	15
6.1	General .....	15
6.2	Identification, definition and choice of metrological characteristics .....	16
6.3	Indicating measuring equipment -- identification of general metrological characteristics ..	17
6.4	Material measures -- Identification of general metrological characteristics .....	19
7	Types of presentation and types of specifications for characteristics .....	21
7.1	General .....	21
7.2	Presentation of characteristic curves -- Fixed and floating zero .....	21
7.3	Presentation of a characteristic -- Statistical .....	24
7.4	Specifications for single-value metrological characteristics .....	25
7.5	Specification for metrological characteristics defined in a range .....	25
7.6	Specification for metrological characteristics defined in a two- or three-dimensional range .....	29
8	Calibration of metrological characteristics .....	29
8.1	Manufacturer and supplier of measuring instruments .....	29
8.2	User of measuring instruments .....	29
8.3	Measurement uncertainty .....	29
9	Marking .....	30
Annex A (normative)	General minimum requirements and guidance for clauses in GPS standards for specific measuring equipment .....	31
Annex B (informative)	Data sheet for measuring equipment requirements .....	33
Annex C (normative)	Relation to the GPS matrix model .....	35
Bibliography .....		37
