Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 General 2

5 Test probing error 3

6 Test of size 3
6.1 General 3
6.2 Analysis of the uncertainty contributors 4
6.3 Graphical representation of the test results 6

Annex A (normative) Background and more detailed information 8

Annex B (normative) Using an alternative material standard of size 20

Annex C (informative) Examples of uncertainty budgeting 21

Annex D (informative) Relation to the GPS matrix model 30

Bibliography 31
