Packaging and the environment - Processes for chemical recovery

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Inventory of relevant existing documents 2

5 Identificationoffurtherpackaging-specificneedsrelatedtochemicalrecovery 2

6 Suitability for chemical recovery process 2

Annex A (informative) Examples of monomer recovery of PET 4

Annex B (informative) An example of oil recovery 6

Annex C (informative) An example of gas recovery 7

Annex D (informative) An example of reduction agent in blast furnaces 8

Annex E (informative) An example of raw material for coke manufacturing 9

Annex F (informative) Assessment checklist -- suitability for chemical recovery process 10
