## Packaging and the environment - Processes for chemical recovery

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1 Scope .....		1
2 Normative references .....		1
3 Terms and definitions .....		1
4 Inventory of relevant existing documents .....		2
5 Identification of further packaging-specific needs related to chemical recovery .....		2
6 Suitability for chemical recovery process .....		2
Annex A (informative) Examples of monomer recovery of PET .....		4
Annex B (informative) An example of oil recovery .....		6
Annex C (informative) An example of gas recovery .....		7
Annex D (informative) An example of reduction agent in blast furnaces .....		8
Annex E (informative) An example of raw material for coke manufacturing .....		9
Annex F (informative) Assessment checklist -- suitability for chemical recovery process .....		10
Bibliography .....		11
