

DIN 2002:2020-02 (E)

Packaging - Transport packaging for dangerous goods - Chemical compatibility of polyethylene and coextruded plastic packagings

Contents	Page
Foreword	3
Introduction	4
1 Scope	5
2 Normative references	6
3 Terms and definitions	6
4 Equipment	6
5 Test liquids	8
5.1 PFL-FR 2344	8
5.2 PFL-FR 2323	9
6 Test method	10
6.1 General	10
6.2 Procedure D — Resistance to absorption	11
6.2.1 Principle	11
6.2.2 Selection and preparation of the test bottles	12
6.2.3 Determination of the tare mass	12
6.2.4 Filling the test bottles	12
6.2.5 Storage of the test bottles	12
6.2.6 Determination of the absorption	12
6.3 Procedure E — Determination of the tensile impact strength	12
6.3.1 Principle	12
6.3.2 Selection and preparation of the test bottles	12
6.3.3 Filling the test bottles	13
6.3.4 Deformation of the test bottles	13
6.3.5 Storage of the test bottles	13
6.3.6 Test specimens for determination of the tensile impact strength	13
6.3.7 Determination of the tensile impact strength	14
7 Test report	15
Bibliography	16
