ISO 8611-1:2004-02 (E)

Pallets for materials handling - Flat pallets - Part 1: Test methods

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Measurements 2

5 Accuracy of tests and apparatus 2

6 Test load 3

7 List of tests 3

8 Static tests 4
8.1 Test No. 1 -- Bending tests 4
8.2 Test No. 2 -- Wing pallet bending tests 5
8.3 Test No. 3 -- Air bag bending tests 7
8.4 Test No. 4 -- Fork lifting tests 10
8.5 Test No. 5 -- Compression tests for blocks or stringers 11
8.6 Test No. 6 -- Stacking test 13
8.7 Test No. 7 -- Dead-weight bending test 14
8.8 Test No. 8 -- Bottom deck bending tests 15
8.9 Test No. 9 -- Static shear test 16

9 Dynamic strength tests 17
9.1 Test No. 10 -- Corner drop test 17
9.2 Inclined plane impact tests 18

10 Friction tests 23
10.1 Test No. 14 -- Static coefficient of friction test 23
10.2 Test No. 15 -- Slip angle test 24

11 Test report 25
11.1 General information -- all materials 25
11.2 Information for wooden and wood-based composite pallets 26
11.3 Information for plastic pallets 26
11.4 Information for pallets made of other materials 26

Bibliography 27
