Foreword 3

Introduction 4

1 Scope 5

2 Normative references 6

3 Identification of physical events 6
3.1 General 6
3.2 Identification of periodic signal components 7
3.3 Identification of time-varying signals 7

4 Visual inspection of analogue time histories 10
4.1 Signal clipping 10
4.2 Excessive instrumentation noise 11
4.3 Intermittent noise 13
4.4 Power line pickup 14
4.5 Spurious trends 15
4.6 Signal dropouts 17

5 Visual inspection of digital time histories 18
5.1 General 18
5.2 Signal clipping 18
5.3 Excessive digital noise 19
5.4 Wild points 19
5.5 Spurious trends 20

6 Visual inspection of analysed data 20
6.1 General 20
6.2 Probability density plots 20
6.2.1 General 20
6.2.2 Signal clipping 21
6.2.3 Intermittent noise 21
6.2.4 Wild points 22
6.2.5 Power line pickup 22
6.2.6 Signal dropouts 23
6.3 Narrow band spectral analysis 24
6.3.1 General 24
6.3.2 Excessive instrumentation noise 25
6.3.3 Power line pickup 25

7 Corrective editing of time histories 26
7.1 General 26
7.2 Corrections of excessive instrumentation noise 27
7.3 Removal of intermittent noise spikes and wild points 27
7.4 Removal of spurious trends 28
7.5 Removal of temporary signal dropouts 28

8 Identification of periodic components 30
8.1 General 30

8.2 Narrow-band spectral analysis 30
8.3 Band-limited probability density analysis 31

9 Identification of stationary and non-stationary trends 31

Bibliography 33
