ISO 18512:2007-08 (E)

Soil quality - Guidance on long and short term storage of soil samples

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 3

4 General comments on soil storage 3

5 Change in soil properties during storage 4

6 Storage conditions 4
6.1 General 4
6.2 Light 4
6.3 Temperature 4
6.4 Humidity 4
6.5 Accessibility, security, documentation and quality control 5
6.6 Duration of storage 5
6.7 Containers and quantity of sample stored 5
6.8 Preparing the samples after storage 5

7 Stepwise scheme 6

8 Step A: Consideration of need for further analysis and duration of storage 6

9 Step B: Consideration of parameters currently relevant to the study 6

10 Step C: Consideration of parameters which may be of interest in the future 6

11 Step D: Consideration of how each of these parameters may be affected by storage conditions 7
11.1 General 7
11.2 Soil characteristics 7
11.3 Chemical parameters 7
11.4 Biological tests 10

12 Step E: Design of storage conditions required to avoid change in sample properties 11

13 Step F: Design of documentation and labelling scheme including sample management 11

14 Step G: Estimation of costs for storage and documentation and comparison of these costs with available or expected funding 11

15 Test report 12

Annex A (normative) Storage for soil samples 13
