

ISO 17402:2008-06 (E)

Soil quality - Requirements and guidance for the selection and application of methods for the assessment of bioavailability of contaminants in soil and soil materials

Contents		Page
Foreword		v
Introduction		vi
1	Scope	1
2	Normative references	1
3	Terms and definitions	2
4	Bioavailability in relation to assessment of soil function	6
4.1	Soil functions and organisms to protect	6
4.2	Risk assessment	6
4.3	Protection goals	7
5	Concepts of bioavailability	8
5.1	Definitions	8
5.2	Links between bioavailability and biological effects and/or bioaccumulation	10
6	Description of methods to assess bioavailability	11
6.1	General	11
6.2	Assessment of bioavailability using chemical test methods	12
6.3	Assessment of bioavailability using ecotoxicological test methods	13
7	Pathways related to soil quality (both organism and soil)	14
7.1	General	14
7.2	Human	14
7.2.1	General	14
7.2.2	Soil ingestion	14
7.2.3	Dermal contact	15
7.2.4	Inhalation of soil	15
7.2.5	Groundwater used for drinking water	15
7.3	Exposure of higher animals	15
7.4	Exposure of soil organisms	15
7.4.1	General	15
7.4.2	Exposure of soil micro-organisms	15
7.4.3	Exposure of soil invertebrates (micro-, meso- and macro-fauna)	16
7.5	Exposure of plants	16
8	Available methods to measure bioavailability	17
8.1	General	17
8.2	Chemical methods to measure environmental availability	17
8.2.1	General	17
8.2.2	Methods for soil ingestion	18
8.2.3	Methods for dermal uptake	19
8.2.4	Methods for plants	19
8.2.5	Methods for leaching from the solid phase to the soil solution	19
8.2.6	Methods for biodegradation	20
8.2.7	Methods for soil organisms	20

8.2.8	Available and promising chemical methods to measure bioavailability	20
8.3	Ecotoxicological test methods to measure bioavailability	22
9	Requirements	25
9.1	General	25
9.2	Requirements for selection and application	25
9.2.1	Requirements for selection	25
9.2.2	Requirements for application	26
9.3	Requirements for development	27
Annex A (informative) Bioavailability in relation to biodegradability		29
Annex B (informative) International Standards for the determination of the toxicity of chemicals on sediment organisms (laboratory tests)		30
Bibliography		31
