Foreword	4
1 Scope	5
2 Normative references	5
3 Terms and definitions	7
4 Supply structures and scope of responsibilities	10
4.1 Supply structures	10
4.2 Responsibilities	12
5 Central drinking-water supply system (supply section I)	12
5.1 Basic requirements	12
5.2 Responsibility	13
6 Distribution and filling system (supply section II)	13
6.1 General	13
6.2 Basic requirements	13
6.3 Responsibility	13
6.4 Planning and installation requirements	14
6.5 Disinfection of drinking water	15
6.6 Filling systems for railway vehicles and aircraft	16
6.7 Filling systems for road vehicles and watercraft	17
6.8 Distribution systems for units temporarily connected to a distribution pipeline	17
6.9 Pipe and hose lines	19
6.10 Operation of distribution and filling systems	20
6.10.1 General	20
6.10.2 Disinfection units	20
6.10.3 Drinking-water storage	20
6.10.4 Cleaning and disinfection of system components	20
6.10.5 Putting distribution and filling systems into operation and taking them out of operation ..	21
6.11 Supervision and inspection of the distribution and filling systems and the drinking water by the operator	21
6.11.1 General	21
6.11.2 Water quality control	22
7 Drinking-water supply (supply section III)	22
7.1 General	22
7.2 Basic requirements	23
7.3 Responsibility	24
7.4 Planning, installation and operation requirements	24
7.4.1 Basic requirements	24
7.4.2 Planning	25
7.4.3 Installation	27
7.4.4 Operation	29
7.5 Supervision and inspection of the supply systems and of the drinking water by the operator	30
7.5.1 General	30

7.5.2	Railway vehicles	31
7.5.3	Road vehicles	32
7.5.4	Aircraft	32
7.5.5	Watercraft	32
7.5.6	Unit temporarily connected to a water distribution system	33
8	Supervision and control of systems and drinking water by public authorities	33
9	Operation logs of drinking-water supply systems (drinking-water log)	33
Annex A (normative) Scope and frequency of drinking-water examinations to be carried out by the operator		34
Annex B (informative) Other statutory regulations, accident-prevention regulations and technical rules		38
Figures Figure 1 - Schematic representation of drinking-water supply from non-stationary units		11
Figure 2 - Labelling for a filling system conforming to the standard		17
Figure 3 - Example of a drinking-water distribution system for temporarily connected units		18
Figure 4 - Example of a drinking-water distribution system for temporarily connected units using manifold distributors (tree structure)		19
