

# DIN EN ISO 22391-2:2010-04 (E)

## Plastics piping systems for hot and cold water installations - Polyethylene of raised temperature resistance (PE-RT) - Part 2: Pipes (ISO 22391-2:2009)

---

| <b>Contents</b>  |   | <b>Page</b> |
|--|---|-------------|
| Foreword .....   |   | 3           |
| Introduction .....   |   | 4           |
| 1  | Scope .....   | 5           |
| 2  | Normative references .....                              | 5           |
| 3  | Terms, definitions, symbols and abbreviated terms ..... | 6           |
| 4  | Material .....  | 6           |
| 4.1  | Pipe material .....                                     | 6           |
| 4.2  | Evaluation of LPL values .....                          | 6           |
| 4.3  | Influence on water intended for human consumption ..... | 9           |
| 5  | General characteristics .....                           | 9           |
| 5.1  | Appearance .....  | 9           |
| 5.2  | Opacity .....   | 9           |
| 6  | Geometrical characteristics .....                       | 9           |
| 6.1  | General .....   | 9           |
| 6.2  | General dimensions of pipe .....                        | 10          |
| 7  | Mechanical characteristics .....                        | 13          |
| 8  | Physical and chemical characteristics .....             | 14          |
| 9  | System performance requirements .....                   | 14          |
| 10   | Marking .....   | 14          |
| 10.1   | General requirements .....                              | 14          |
| 10.2   | Minimum required marking .....                          | 15          |
| Annex A (informative) Derivation of the maximum calculated pipe value $Scalc, max$ ..... |   | 16          |
| Bibliography .....   |   | 18          |
