Page

Foreword iv

Introduction vi

1 Scope 1

2 Normative references 1

3 Terms, definitions and abbreviated terms 1

4 Test methods 2
4.1 Principle 2
4.2 Standard conditions 3

5 Test materials 3
5.1 Distilled water 3
5.2 Biological material 3
5.3 Control substrate 3
5.4 Reference substance 4
5.5 Trypan blue 4
5.6 Apparatus 4

6 Storage and preparation of samples 5

7 Procedure 5
7.1 Biological system 5
7.2 Preparation of the test mixture 6
7.3 Setting up of the test 7
7.4 Choice of the tested concentration 8
7.5 Culture condition 8
7.6 End of the test 8

8 Calculation and expression of results 9
8.1 Calculation 9
8.2 Expression of results 9

9 Validity criteria 9

10 Test report 9

Annex A (informative) Experimental device 11

Annex B (informative) Example of table of results 12

Annex C (informative) Example of results 13

Annex D (informative) Precision data 15

Bibliography 17
