DIN EN 13508-2:2011-08 (E)

Investigation and assessment of drain and sewer systems outside buildings - Part 2: Visual inspection coding system

Contents

Page

Foreword 5

Introduction 6

1 Scope 6

2 Normative references 6

3 Terms and definitions 7

4 Sources of additional information 12

5 General 12
5.1 Purpose 12
5.2 Methods 12
5.3 The use of the coding system 13
5.4 National equivalent coding systems 13
5.5 Data transfer 13
5.6 Information to be supplied by the employing authority 13

6 Drains and sewers - Coding system 14

7 Drains and sewers - Header information 14
7.1 Requirements 14
7.2 Other header information 15

8 Drains and sewers - Codes 16
8.1 Introduction 16
8.1.1 General 16
8.1.2 Main code 20
8.1.3 Characterisation 20
8.1.4 Quantification 20
8.1.5 Circumferential location 20
8.1.6 Observation at joint 21
8.1.7 Longitudinal location 21
8.1.8 Photograph reference 22
8.1.9 Video location reference 22
8.1.10 Remarks 22
8.2 Codes relating to the fabric of the pipeline 23
8.3 Codes relating to the operation of the pipeline 29
8.4 Inventory codes 33
8.5 Other codes 37

9 Manholes and inspection chambers - Coding system 40

10 Manholes and inspection chambers - Header information 40
10.1 Requirements 40
10.2 Other header information 40

11 Manholes and inspection chambers - Codes 41
11.1 Introduction 41

11.1.1 General ... 41
11.1.2 Main code ... 46
11.1.3 Characterisation ... 46
11.1.4 Quantification ... 46
11.1.5 Circumferential location ... 46
11.1.6 Observation at joint ... 47
11.1.7 Descriptive location ... 47
11.1.8 Vertical location ... 48
11.1.9 Photograph reference ... 49
11.1.10 Video location reference ... 49
11.1.11 Remarks ... 49
11.2 Codes relating to the fabric of the manhole or inspection chamber ... 49
11.3 Codes relating to the operation of the manhole or inspection chamber ... 57
11.4 Inventory codes ... 59
11.5 Other codes ... 65

12 Documentation ... 67

Annex A (normative) National equivalent coding systems ... 68

A.1 Header information ... 68
A.2 Codes ... 68

Annex B (informative) Format for electronic transfer of coded data ... 69

B.1 Introduction ... 69

!B.2 Character Separated format" ... 69
B.2.1 General ... 69
B.2.2 File header information ... 69
B.2.3 Inspection header information ... 71
B.2.4 Inspection data ... 72
B.2.5 Examples ... 73
B.3 Extensible Mark-up Language Format ... 74
B.3.1 General ... 74
B.3.2 File header information ... 75
B.3.3 Inspection header information ... 75
B.3.4 Inspection data ... 75
B.3.5 Example ... 75

Annex C (informative) Recommended system for coding of header information for drains and sewers ... 79

C.1 Introduction ... 79
C.2 Location of the inspection ... 79
C.3 Inspection details ... 82
C.4 Pipeline details ... 86
C.5 Other information ... 89
C.6 Changes to header information ... 89
C.7 Other information required by the employing authority ... 91

Annex D (informative) Recommended system for coding of header information for manholes and inspection chambers ... 92

D.1 Introduction ... 92
D.2 Location of the inspection ... 92
D.3 Inspection details ... 94
D.4 Manhole or inspection chamber details ... 98
D.5 Other information ... 100
D.6 Changes to header information ... 101
D.7 Other information required by the employing authority ... 102

Annex E (informative) Sample coding sheet 103

Annex F (informative) Photographs illustrating the coding system for drains and sewers 105

Annex G (informative) Photographs illustrating the coding system for manholes and inspection chambers 134

Annex H (informative) Sources of additional information 145

H.1 International Standards 145
H.2 Austria 145
H.2.1 Austrian Water and Waste Management Association - Rules of Practice (ÖWAV - Österreichischer Wasser- und Abfallwirtschaftsverband - Regelblätter) 145
H.2.2 Other guidelines 145
H.3 Denmark 146
H.4 Finland 146
H.5 France 147
H.6 Germany 147
H.7 Italy 148
H.8 Netherlands 148
H.9 Norway 148
H.10 Sweden 148
H.11 Switzerland 148
H.12 United Kingdom 149

Converting data from earlier versions of this standardAnnex I (informative) ..... 150!
