ISO 1100-2:2010-12 (E)

Hydrometry - Measurement of liquid flow in open channels - Part 2: Determination of the stage-discharge relationship

Contents

Page

Foreword iv

1 Scope 1

2 Normative references 1

3 Symbols 1

4 Principle of the stage-discharge relationship 2
4.1 General 2
4.2 Controls 3
4.3 Governing hydraulic equations 3
4.4 Complexities of stage-discharge relationships 4

5 Stage-discharge calibration of a gauging station 5
5.1 General 5
5.2 Preparation of a stage-discharge relationship 5
5.3 Curve fitting 11
5.4 Combination-control stage-discharge relationships 12
5.5 Stable stage-discharge relationships 12
5.6 Unstable stage-discharge relationships 12
5.7 Shifting controls 13
5.8 Variable-backwater effects 15
5.9 Extrapolation of the stage-discharge relationship 17

6 Methods of testing stage-discharge relationships 18

7 Uncertainty in the stage-discharge relationship 18
7.1 General 18
7.2 Definition of uncertainty 18
7.3 Statistical analysis of the stage-discharge relationship 19
7.4 Uncertainty of predicted discharge 21
7.5 Uncertainty in the daily mean discharge 22

Annex A (informative) Uncertainty in the stage-discharge relationship and in a continuous measurement of discharge 23
