Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Principle 2

5 Test environment 2

6 Reagents, test organisms and media 2

7 Apparatus and materials 3

8 Treatment and preparation of samples 4
8.1 Special precautions 4
8.2 Preparation of the stock solutions of substances to be tested 4

9 Procedure 4
9.1 Hatching of the cysts 4
9.2 Selection of test concentrations 5
9.3 Preparation of the test and control solutions 5
9.4 Introduction of the organisms 6
9.5 Incubation of the test system 6
9.6 Measurements 7

10 Estimation of the LC50 7

11 Reference test 8

12 Validity criteria 8

13 Test report 8

Annex A (informative) Rapid test for determination of sublethal effects on Thamnocephalus platyurus (1 h exposure) 10

Annex B (informative) Culturing of Thamnocephalus platyurus for cyst production 16

Annex C (informative) Precision data 19
