

ISO 14380:2011-11 (E)

Water quality - Determination of the acute toxicity to *Thamnocephalus platyurus* (Crustacea, Anostraca)

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Principle	2
5	Test environment	2
6	Reagents, test organisms and media	2
7	Apparatus and materials	3
8	Treatment and preparation of samples	4
8.1	Special precautions	4
8.2	Preparation of the stock solutions of substances to be tested	4
9	Procedure	4
9.1	Hatching of the cysts	4
9.2	Selection of test concentrations	5
9.3	Preparation of the test and control solutions	5
9.4	Introduction of the organisms	6
9.5	Incubation of the test system	6
9.6	Measurements	7
10	Estimation of the LC50	7
11	Reference test	8
12	Validity criteria	8
13	Test report	8
Annex A (informative) Rapid test for determination of sublethal effects on <i>Thamnocephalus platyurus</i> (1 h exposure)		10
Annex B (informative) Culturing of <i>Thamnocephalus platyurus</i> for cyst production		16
Annex C (informative) Precision data		19
Bibliography		20
