|---|---|-------------|
| 1   | Scope .....                                 | 1           |
| 2   | Normative reference .....                   | 1           |
| 3   | Terms and definitions .....                 | 2           |
| 4   | Principle .....                             | 3           |
| 5   | Test environment.....                       | 4           |
| 6   | Reagents .....                              | 4           |
| 7   | Apparatus.....                              | 5           |
| 8   | Procedure.....                              | 5           |
| 9   | Calculation and expression of results ..... | 9           |
| 10  | Expression of results .....                 | 10          |
| 11  | Validity of results.....                    | 10          |
| 12  | Precision of the method .....               | 11          |
| 13  | Test report.....                            | 11          |
| Annex A (informative) Example of a biodegradation curve ..... |   | 12          |
| Annex B (informative) Statistical treatment of results .....  |   | 13          |
| Annex C (informative) Interlaboratory ring test .....         |   | 14          |
| Bibliography.....   |   | 15          |
