Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Incorporation in the sampling plan 2

5 Preparing samples for consignment 2
5.1 General 2
5.2 Containers 2
5.3 Labels 4
5.4 Preservation of samples 4
5.5 Filling containers and preparing samples and containers for consignment and transport 4
5.6 Sealing and consignment 5
5.7 Preservation of samples 5

6 Preservation prior to transport 5
6.1 General requirements 5
6.2 Cooling and freezing 7
6.3 Airtight storage 7
6.4 Nitrogen atmosphere 7
6.5 Hazardous materials 8

7 Transport 8
7.1 General requirements 8
7.2 Special transportation requirements 8
7.2.1 Dry soils 8
7.2.2 Samples for biological testing 8
7.2.3 Samples for DNA or RNA analysis 8
7.2.4 Drill cores 8
7.2.5 Cut soil cylinders 8
7.2.6 Large volumes of soil 8

8 Delivery 9
