Soil quality - Sampling - Part 105: Packaging, transport, storage and preservation of samples

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Incorporation in the sampling plan	2
5	Preparing samples for consignment	2
5.1	General	2
5.2	Containers	2
5.3	Labels	4
5.4	Preservation of samples	4
5.5	Filling containers and preparing samples and containers for consignment and transport...4	4
5.6	Sealing and consignment	5
5.7	Preservation of samples	5
6	Preservation prior to transport	5
6.1	General requirements	5
6.2	Cooling and freezing	7
6.3	Airtight storage	7
6.4	Nitrogen atmosphere	7
6.5	Hazardous materials	8
7	Transport	8
7.1	General requirements	8
7.2	Special transportation requirements	8
7.2.1	Dry soils	8
7.2.2	Samples for biological testing	8
7.2.3	Samples for DNA or RNA analysis	8
7.2.4	Drill cores	8
7.2.5	Cut soil cylinders	8
7.2.6	Large volumes of soil	8
8	Delivery	9
