## Hydrometry - Measurement of discharge by the ultrasonic transit time (time of flight) method

---

| <b>Contents</b> |  | <b>Page</b> |
|-----------------|--|-------------|
| Foreword .....  |  | v           |
| <b>1</b>        | <b>Scope .....</b>   | <b>1</b>    |
| <b>2</b>        | <b>Normative references .....</b>  | <b>1</b>    |
| <b>3</b>        | <b>Terms and definitions .....</b>   | <b>1</b>    |
| <b>4</b>        | <b>Applications .....</b>  | <b>1</b>    |
| 4.1             | Types of applications .....  | 1           |
| 4.2             | Attributes and limitations .....   | 2           |
| <b>5</b>        | <b>Method of measurement .....</b>   | <b>2</b>    |
| 5.1             | Discharge .....  | 2           |
| 5.2             | Calculation of discharge from the transit-time measurement .....                 | 3           |
| <b>6</b>        | <b>Flow velocity determination by the ultrasonic (transit time) method .....</b> | <b>3</b>    |
| 6.1             | Principle .....  | 3           |
| 6.2             | Sound propagation in water .....   | 5           |
| 6.2.1           | General .....  | 5           |
| 6.2.2           | Speed of sound in water .....  | 6           |
| 6.2.3           | Propagation losses .....   | 6           |
| 6.2.4           | Signal path bending .....  | 8           |
| 6.2.5           | Reflection .....   | 9           |
| <b>7</b>        | <b>Gauge configuration .....</b>   | <b>10</b>   |
| 7.1             | General .....  | 10          |
| 7.2             | Single-path systems .....  | 10          |
| 7.3             | Multi-path systems .....   | 11          |
| 7.4             | Crossed-path systems .....   | 11          |
| 7.5             | Reflected-path systems .....   | 13          |
| 7.6             | Systems using transponders .....   | 14          |
| 7.7             | Wireless systems (if a cable crossing is not possible) .....                     | 15          |
| 7.8             | Systems using divided cross-sections .....                                       | 16          |
| 7.9             | Sloping paths .....  | 16          |
| <b>8</b>        | <b>Determination of discharge .....</b>  | <b>17</b>   |
| 8.1             | Single-path systems .....  | 17          |
| 8.2             | Multi-path systems .....   | 18          |
| 8.2.1           | General .....  | 18          |
| 8.2.2           | Mid-section method .....   | 19          |
| 8.2.3           | Mean-section method .....  | 20          |
| 8.3             | Systems with transducers in the channel .....                                    | 21          |
| <b>9</b>        | <b>System verification and calibration .....</b>                                 | <b>22</b>   |
| <b>10</b>       | <b>Site selection .....</b>  | <b>23</b>   |
| <b>11</b>       | <b>Site survey -- Before design and construction .....</b>                       | <b>23</b>   |
| 11.1            | General .....  | 23          |
| 11.2            | Visual survey .....  | 23          |

|         |  |    |
|---------|--|----|
| 11.3    | Survey of the cross-section .....                        | 24 |
| 11.4    | Survey of velocity distribution .....                    | 24 |
| 11.5    | Survey of signal propagation .....                       | 24 |
| 12      | Operational measurement requirements .....               | 24 |
| 12.1    | General .....  | 24 |
| 12.2    | Basic components of flow determination .....             | 25 |
| 12.3    | Water velocity determination .....                       | 25 |
| 12.4    | Determination of water stage or depth .....              | 25 |
| 12.5    | Determination of mean bed level .....                    | 26 |
| 12.6    | Channel width .....                                      | 27 |
| 13      | Gauging station equipment .....                          | 27 |
| 13.1    | General .....  | 27 |
| 13.2    | Design and construction of equipment .....               | 28 |
| 13.2.1  | Transducers .....  | 28 |
| 13.2.2  | Transducer cables .....                                  | 29 |
| 13.3    | Reflectors .....   | 29 |
| 13.4    | Civil engineering works .....                            | 32 |
| 13.5    | Signal timing and processing .....                       | 32 |
| 13.5.1  | General .....  | 32 |
| 13.5.2  | Signal-to-noise ratio .....                              | 32 |
| 13.5.3  | Signal maintenance (gain control) .....                  | 33 |
| 13.5.4  | Signal detection .....                                   | 33 |
| 13.5.5  | Post-detection filtering .....                           | 34 |
| 13.6    | System self-checking .....                               | 34 |
| 13.7    | Site-specific data (or site parameters) .....            | 35 |
| 13.8    | Clock and calendar .....                                 | 35 |
| 13.9    | System performance criteria .....                        | 35 |
| 13.9.1  | General .....  | 35 |
| 13.9.2  | Operating environment .....                              | 36 |
| 13.9.3  | Water environment .....                                  | 36 |
| 13.9.4  | Mechanical environment .....                             | 36 |
| 13.9.5  | Extreme environmental conditions .....                   | 36 |
| 13.9.6  | Power source .....                                       | 36 |
| 13.9.7  | Measurement uncertainty .....                            | 36 |
| 13.10   | System output .....                                      | 37 |
| 13.10.1 | Local display .....                                      | 37 |
| 13.10.2 | Local record .....                                       | 37 |
| 13.10.3 | Remote record .....                                      | 37 |
| 13.10.4 | Diagnostic information .....                             | 37 |
| 13.11   | Installation .....                                       | 37 |
| 13.12   | Commissioning .....                                      | 38 |
| 13.13   | Operating manual .....                                   | 38 |
| 13.14   | Maintenance .....  | 39 |
| 14      | Measurement uncertainties .....                          | 40 |
| 14.1    | General .....  | 40 |
| 14.2    | Definition of uncertainty .....                          | 40 |
| 14.3    | Uncertainty in discharge .....                           | 41 |
| 14.3.1  | Uncertainty equation .....                               | 41 |
| 14.3.2  | Effective number of paths .....                          | 42 |
| 14.3.3  | Uncertainty in the line velocity, $U_{lv}$ .....         | 42 |
| 14.3.4  | Uncertainty in the channel width estimation, $U_w$ ..... | 42 |
| 14.3.5  | Examples of uncertainty estimation .....                 | 43 |
| 14.3.6  | Uncertainty estimate at low flow .....                   | 44 |
| 14.3.7  | Uncertainty estimate at high flow .....                  | 45 |
| Annex A | (informative) Principle of measurement uncertainty ..... | 47 |

**Annex B (informative) Performance guide for hydrometric equipment for use in technical standard examples ..... 54**

**Bibliography ..... 58**
