European foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Principle 5

5 Equipment, preservatives and reagents 6
5.1 Sieves 6
5.2 Microscope 6
5.3 Fixatives and preservatives 6
5.3.1 General 6
5.3.2 Formaldehyde, 37 % (volume fraction) 6
5.3.3 Ethanol, C2H5OH 7
5.4 Reagents for examination using compound microscopes 7
5.4.1 General 7
5.4.2 Koenike 7
5.4.3 Laevulose syrup 7

6 Pre-laboratory procedure 7
6.1 General 7
6.2 Sample processing in the field 8
6.3 Transport and storing of samples 8

7 Laboratory procedure 9
7.1 General 9
7.2 Pre-treatment prior to sorting 10
7.2.1 General 10
7.2.2 Pre-sorting 11
7.2.3 Rinsing 11
7.2.4 Decanting 11
7.2.5 Sub-sampling 11
7.3 Quantitative sorting 12
7.3.1 General 12
7.3.2 Quantitative sorting on a tray 13
7.3.3 Quantitative sorting using a stereo-zoom microscope 14
7.3.4 Screening 14

8 Identification 14
8.1 General 14
8.2 Arachnida 15
8.3 Chironomids 15
8.4 Oligochaetes 15
8.5 Platyhelminthes 15

9 Quality assurance 15

Annex A (informative) Examples of sample splitters and sorting tray 16
