ISO 22524:2020-05 (E)

Pilot plan for industrial wastewater treatment facilities in the objective of water reuse

Contents

Page

Foreword ..... **v**

Introduction ..... **vi**

1 Scope **1**

2 Normative references **1**

3 Terms, definitions and abbreviated terms **1**
3.1 Terms and definitions 1
3.2 Abbreviated terms 2

4 Lifecycle of a pilot study **2**
4.1 General 2
4.2 Pilot plan lifecycle phases 3
4.2.1 General 3
4.2.2 Statement of pilot plan goals 4
4.2.3 Pilot study programme 4
4.2.4 Pilot plant/facility design and construction 5
4.2.5 Operation and maintenance procedures and protocols 6
4.2.6 Action planning 6
4.2.7 Pilot plant/facility commissioning 6
4.2.8 Pilot plant/facility operation and management 7
4.2.9 Sample collection plan 7
4.2.10 Pilot plan summary 7
4.2.11 Pilot plant/facility shutdown and decommissioning 7

5 Programme and project management **8**
5.1 General 8
5.2 Oversight committee 8
5.3 Pilot study team 8
5.3.1 General 8
5.3.2 Team members 8
5.3.3 Team leader 9
5.3.4 Additional team members 9
5.3.5 Technical experts 9
5.3.6 Team meetings 9
5.4 Quality management system 9
5.5 Risk management 9
5.6 Schedule planning 10
5.6.1 General 10
5.6.2 Time reserve 10

6 Statement of pilot plan goals, scope and boundaries **10**
6.1 Goals 10
6.2 Safety 10
6.3 Sustainability 10
6.4 Effectiveness 11
6.5 Efficiency 11

7 Pilot plan study programme **11**
7.1 General 11
7.2 Pilot plan study programme contents and structure 12
7.2.1 General 12
7.2.2 Background and pilot plan goals and objectives 12

7.2.3 Prior project history, current project state and post-pilot-plan planned activities 12
7.2.4 Pilot plan scope (within/beyond) 12
7.2.5 Pilot plan success/failure criteria 12
7.3 Description of technology and facilities 12
7.4 Description of pilot facility environment and site 12
7.5 Pilot plan correctness and coverage 12
7.6 Pilot plan flexibility 13
7.7 Plan review 13
7.8 Statistical measures, tools and techniques 13
7.9 Pilot plan study programme approval 13

8 Pilot plant/facility development and construction 13
8.1 General 13
8.2 Basis of design (BoD) 14
8.3 Conceptual and preliminary design 14
8.4 Detailed engineering design 14
8.5 Contracting and construction 14
8.6 Acceptance testing 15
8.7 Handover to commissioning and operational team 15

9 Operational framework establishment 15
9.1 General 15
9.2 Pilot plant/facility procedure manual 15
9.2.1 General 15
9.2.2 List of procedures 16
9.3 Sampling and measurement 16
9.3.1 Sampling and analysis planning 16
9.3.2 Measurement and sampling equipment, analysers and tools 17
9.3.3 Sampling frequency and sample size 17
9.3.4 Sampling and analysis validation 17

10 Pilot plant/facility commissioning phase 17
10.1 General 17
10.2 Commissioning process basic stages 17
10.2.1 General 17
10.2.2 'Dry' run 18
10.2.3 'Wet' run (water run) 18

11 Pilot plan operational phase 18
11.1 General 18
11.2 Reduced loading performance (best case) 18
11.3 Normal loading performance (typical case) 19
11.4 Stressed loading performance (worst case) 19

12 Study summary and reporting 19

13 Permanent shutdown and decommissioning 19

Bibliography 21
