ISO 20468-3:2020 (E)

Guidelines for performance evaluation of treatment technologies for water reuse systems — Part 3: Ozone treatment technology

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms, definitions and abbreviated terms

3.1 Terms and definitions
3.2 Abbreviated terms

4 System configuration

4.1 General
4.2 Ozone system for water treatment
4.2.1 Feed gas supply unit
4.2.2 Ozone generation unit
4.2.3 Ozone contact unit
4.2.4 Off-gas ozone treatment unit
4.2.5 Ozone measuring system

5 Principles and general guidelines for performance evaluation

5.1 General
5.2 Functional requirements
5.2.1 General
5.2.2 Performance evaluation procedures
5.2.2.1 STEP1 — Setting performance criteria and objectives
5.2.2.2 STEP 2 — Performance evaluation
5.2.2.3 STEP 3 — Diagnosis of causes for unsatisfactory performance
5.3 Non-functional requirements
5.3.1 Performance characteristics
5.3.2 Environmental and economic key factors
5.3.2.1 Electric power consumption
5.3.2.2 Oxygen consumption
5.3.3 Safety requirements

Annex A (informative) Main treatment technologies and target constituents for water reuse

Annex B (informative) Reuse water quality parameters

Annex C (informative) Ozone concentration monitoring points

Annex D (informative) Ozone generation control methods
