

ISO 11063:2020 (E)

Soil quality — Direct extraction of soil DNA

Contents

	Foreword
	Introduction
1	Scope
2	Normative references
3	Terms and definitions
4	Principle
5	Test materials
5.1	Soil
5.2	Chemicals
5.3	Buffers and reagents
6	Apparatus
7	Procedures
7.1	Preparation of soil samples
7.2	Mechanical and chemical lyses
7.3	Protein precipitation
7.4	Nucleic acid precipitation and washing
7.5	Nucleic acid storage
8	Estimation of soil DNA quality and quantity
8.1	Soil DNA quality and purity
8.2	Soil DNA quantity
9	Validation of the extraction procedure
10	Test report
Annex A	(informative) Differences between ISO 11063:2012 and the revised document for direct extraction of DNA from soil samples
Annex B	(informative) Possible methods to purify soil DNA extracts
