

ISO/TR 27922:2021 (E)

Carbon dioxide capture — Overview of carbon dioxide capture technologies in the cement industry

Contents

	Foreword
	Introduction
1	Scope
2	Normative references
3	Terms and definitions
4	CO ₂ and the cement industry
4.1	Cement manufacture
4.2	CO ₂ emissions from the cement industry
4.2.1	Production process description
4.2.2	Process emissions from calcination
4.2.3	Combustion emissions
4.2.4	Emissions compared to other sectors
4.3	CO ₂ purification after capture
4.4	Abatement technologies in general
5	Overview of CO ₂ capture technologies
5.1	Absorption with amines
5.2	Absorption with chilled ammonia
5.3	Sorbent-based adsorption technologies
5.4	Oxy-fuel combustion technology
5.5	Pressure swing adsorption separation technology
5.6	Separation with membranes
5.7	Direct separation
5.8	Calcium looping
6	Overview and assessment
6.1	Assessment factors of CO ₂ capture technologies
6.2	Case study of technological and economic evaluation of CO ₂ capture technologies
6.3	Ability to retrofit existing cement plants with CO ₂ capture technologies
7	Final considerations
