ISO 10390:2021 (E)

Soil, treated biowaste and sludge – Determination of pH

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Principle

5 Reagents

6 Apparatus

7 Laboratory sample

8 Procedure

- 8.1 Preparation of the suspension
- 8.2 Calibration of the pH-meter
- 8.3 Measurement of the pH

9 Precision

10 Test report

Annex A (informative) Repeatability and reproducibility data

- A.1 General
- A.2 Results of an interlaboratory trial for the determination of the pH in soils
- A.3 Results of an interlaboratory trial for the determination of the pH in soils, sludge and treated biowaste
- A.3.1 Materials used in the interlaboratory comparison study
- A.3.2 Interlaboratory comparison results
