

DIN EN 16933-1:2022-10 (E)

Drain and sewer systems outside buildings - Design - Part 1: Layout principles

Contents		Page
European foreword		3
Introduction		4
1	Scope	6
2	Normative references	6
3	Terms and definitions	6
4	General	8
4.1	Introduction	8
4.2	The design process	8
5	Preliminary investigations	10
5.1	General	10
5.2	Topography	10
5.3	Geotechnical survey	10
5.4	Groundwater	11
5.5	Existing drainage services	11
5.6	Other existing utility services	11
5.7	Nature and quality of inputs	11
6	Layout	12
6.1	General	12
6.2	Access locations	14
6.3	Provision of pumping	16
6.4	Drains and sewers near water abstraction areas	17
7	Sources of additional information	17
