DIN EN 12889:2023-03 (E)

Trenchless construction and testing of drains and sewers

Contents

Page

European foreword 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 General 7
4.1 Technical principles 7
4.2 Safeguarding design decisions 7

5 Construction components and materials 8
5.1 General 8
5.2 Pipes and joints 8
5.3 Manholes and inspection chambers 8
5.4 Delivery, handling and transportation on site 8
5.5 Storage 8
5.6 Other materials 9

6 Techniques 9
6.1 Classification 9
6.2 Unmanned techniques 11
6.2.1 General 11
6.2.2 Non-steerable techniques 11
6.2.3 Steerable techniques 18
6.3 Manned techniques 23
6.3.1 General 23
6.3.2 Non-steerable techniques 24
6.3.3 Steerable techniques 24
6.3.4 Other manned techniques 28

7 Requirements of planning and construction 29
7.1 General 29
7.2 Basic evaluation, design and construction planning 29
7.2.1 General 29
7.2.2 Survey of existing structures and systems 30
7.2.3 Ground and groundwater 31
7.2.4 Minimum clear dimensions 33
7.2.5 Subsidence, heaves, cover 33
7.2.6 Layout of the line 33
7.2.7 Tolerances 33
7.2.8 Starting, intermediate and target pits 33
7.2.9 Working face support 34
7.2.10 Additional measures in water bearing ground 34
7.2.11 Obstacles 34
7.2.12 Soil conditioning 34
7.2.13 Structural calculation 35
7.2.14 Construction site arrangement 35
7.3 Work preparation and construction 35
7.3.1 General 35
7.3.2 Starting, intermediate and target pits 36

7.3.3 Exit and entry processes ... 36
7.3.4 Static calculation of launch and reception shafts ... 36
7.3.5 Overcut ... 36
7.3.6 Recording and logging of jacking parameters ... 36
7.3.7 Support of the working face ... 37
7.3.8 Lubricant and supporting medium ... 37
7.4 Avoidance of damage ... 37

8 Inspection and testing of pipelines after installation ... 38
8.1 General ... 38
8.2 Visual inspection ... 38
8.3 Leaktightness ... 38

9 Qualifications ... 38

Annex A (informative) Additional information about the different systems ... 39

Annex B (informative) Guide to typical ranges of application regarding diameters and lengths in suitable soil ... 49

Annex C (informative) Guide to typical ranges of application for selected trenchless techniques regarding diameters and lengths in suitable soils ... 51

Annex D (informative) Trenchless insertion using a pipe plough system ... 52

Bibliography ... 53
