Smart water management - Part 1: General guidelines and governance

Contents

Page

Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms, definitions and abbreviated terms	1
3.1 Terms and definitions.....	1
3.2 Abbreviated terms.....	3
4 General	4
4.1 Scope for smart water management.....	4
4.2 Challenges and constraints.....	5
4.2.1 Stakeholders.....	5
4.2.2 Considerations and challenges.....	5
4.2.3 Constraints.....	6
4.3 Stakeholder expectations relating to smart water management.....	6
5 Principles and guidelines for the design of smart water management system	8
5.1 General.....	8
5.2 Design scheme for smart water management systems.....	8
5.3 Logical architecture for smart water management systems.....	8
5.4 Design of logical architecture.....	9
5.4.1 Sensing layer.....	9
5.4.2 Monitoring and control layer.....	10
5.4.3 Application layer.....	10
5.4.4 Operation layer.....	12
5.5 Integration of smart water management systems.....	12
6 Principles and guidelines for operation and maintenance of smart water management systems	13
6.1 General.....	13
6.2 Verification of system reliability.....	13
6.2.1 General.....	13
6.2.2 Infrastructure security.....	13
6.2.3 Performance indicators (PIs).....	14
6.3 Emergency response plans.....	14
6.4 Smart water management implementation strategy.....	15
7 Principle and guidelines for the governance of smart water management system	15
7.1 General.....	15
7.2 Leadership, roles and responsibilities.....	16
7.2.1 The owner of the smart water management system.....	16
7.2.2 The leadership team of the owner or water utility.....	16
7.2.3 The responsible body of the smart water management system.....	16
7.2.4 The operator of the smart water management system.....	16
7.2.5 Data management.....	16
7.3 Workforce organization and change management.....	16
7.3.1 General.....	16
7.3.2 Workforce organization.....	16
7.3.3 Change management.....	16
Annex A (informative) Overview of online measurements of the sensing layer	18
Annex B (informative) Cybersecurity reference model of a smart water management system	21
Bibliography	22
